John,

I am working on a letter for you post on your site, but I did just want to write a quick thanks to you and your wonderful actors, for making my birthday party unforgettable! Everyone is still talking about it and asking me for some of the amazing photos from that night. As you could probably imagine we were a little tipsy by the end and unfortunately we left all of the evidence and the mug shots that you made for us, when I called the Brickhouse the next morning they said they threw them out. If you still have them on your PC could you send me copies, I want to make a scrap book and my Grandma wants to frame hers. Thanks again, I will get the letter to you ASAP!
